

BANDRA WEST BUNGALOWS

2026 / HERITAGE REIMAGINED

An illustrated collection of digitally restored architectural views

A VISUAL CELEBRATION

Bandra West has long been associated with leafy lanes, verandas, wooden shutters, tiled roofs, Art Deco curves and distinctive colonial-era residential architecture.

This 2026 catalog gathers the architectural restoration images created in our conversation, presenting imagined "brand-new" versions of these homes while celebrating their original character.

These images are AI-generated artistic visualizations, not documentary photographs of completed restorations. The visuals may reinterpret details and should not be used as historical or architectural records without independent verification.

Properties are numbered as visual studies rather than assigned unverified addresses, identities or ownership details.

85 RESTORATION IMAGES

PRESERVE THE CHARACTER

Every old house has a story in its balconies, rooflines, windows and gardens. These studies envision sympathetic renewal, not demolition or replacement with generic architecture.

EDITORIAL NOTE

This publication is a creative portfolio assembled from previous image-generation work. Authenticity, addresses, ownership, current condition and any heritage protections remain unverified.
